NURIT® 8320L

Secure Payment Terminal

Highlights

The NURIT 8320L offers a range of features specifically designed to provide customers with enhanced value, high-performance and convenience.

Cost-Effectiveness

The NURIT 8320L assures low cost of ownership through a combination of fast transaction processing, outstanding reliability and increased revenue. Running the proven multi-application NURIT Operating System (NOS), the NURIT 8320L supports an extensive range of payment processing options and capabilities. The terminal's secure Visa PED certified internal PIN Pad facilitates a cost-effective way of entering secure PIN based transactions.

Transaction Security

The NURIT 8320L offers an internal PIN pad approved by Visa and MasterCard for secure PED transactions. Optionally tamper-resistant, tamper-evident, and tamper-responsive, this sophisticated terminal provides secure software download and outstanding protection against fraudulent transactions.

The terminal's secure multi-application environment also prevents unauthorized inter-application data access.

Multi-Market Flexibility

The NURIT 8320L is easily customized to meet customers' specific operational and branding requirements, including color coordination, logos, display languages and fonts, and keypad layout and functionality.

Streamlined Management

The NURIT Control Center facilitates deployment and support of a network of NURIT terminals, including integration and management of a wide range of market-specific applications. This sophisticated yet intuitive system is scalable and easily customized. It supports parameter and software download over popular networks, and features inventory and Help Desk management.

Key Features

- Visa PED Online and Offline approval
- Secure internal PIN pad with Triple-DES encryption
- Vertical swipe 2-track magnetic stripe card reader
- Internal high-speed landline modem
- Fast, high-power 32-bit ARM processor
- Powerful multi-application NURIT Operating System (NOS) providing application compatibility with all NURIT terminals
